Advertising Campaign April 2010

Close Brothers launches first ever advertising campaign in national newspapers

Close Brothers Group has a long-standing reputation as one of the City's most respected financial institutions.

Our reputation is underpinned by our values - independence, experience and responsiveness. They determine what business we undertake and how we do it. We are in more demand now than ever.

We have come through the challenges of the last couple of years very well and our business divisions Banking, Asset Management and Securities continue to perform very strongly. We have launched an advertising campaign to reiterate the strength of our franchise and the underlying values of the business.
